

Note Blocker Script

Thank you for downloading the Note Blocker script from MagicFox! This script allows you to block ranges of notes on a channel strip.

License

This script is distributed exclusively by MagicFox Theatrical for non-commercial use only. It may not be sold, included in a rental package, or used in any compensated or paid programming. Please contact us to inquire about purchasing a commercial license.

Installation

1. Move "MFT Note Blocker NC.pst" to (your username)/Music/Audio Music Apps/Plug-In Settings/Scripter
2. Click the **MIDI FX** button on a channel strip (e.g., a harp channel strip) and choose **Scripter**. The Scripter plug-in will open.

3. Click on the drop-down menu ("Factory Default") choose the Note Blocker script.

Additional Support
